

Acknowledgements to reviewers (2013–2014)

Published online 2 October 2015

The Editor depends heavily on reviewers in forming opinions about papers submitted to Parasite.

We are happy to formally thank the following scientists for their help, great effort and effectiveness in improving the quality of manuscripts.

Since January 2013, the rejection rate of Parasite has been about 50%; this list includes reviewers who evaluated papers which were not published.

For 2013 and 2014, our 292 reviewers from 51 countries are listed below. Names are in alphabetical order. Some have reviewed more than one manuscript.

An international open-access, peer-reviewed, online journal publishing high quality papers on all aspects of human and animal parasitology

Reviews, articles and short notes may be submitted. Fields include, but are not limited to: general, medical and veterinary parasitology; morphology, including ultrastructure; parasite systematics, including entomology, acarology, helminthology and protistology, and molecular analyses; molecular biology and biochemistry; immunology of parasitic diseases; host-parasite relationships; ecology and life history of parasites; epidemiology; therapeutics; new diagnostic tools.

All papers in Parasite are published in English. Manuscripts should have a broad interest and must not have been published or submitted elsewhere. No limit is imposed on the length of manuscripts.

Parasite (open-access) continues **Parasite** (print and online editions, 1994-2012) and **Annales de Parasitologie Humaine et Comparée** (1923-1993) and is the official journal of the Société Française de Parasitologie.
